

UMO folding pouf

TYP
folding

MATTRESS
foam, height 10 cm

The unfolding Umo pouffe is a 2in1 solution. The smart un-folding system of the ergonomic frame and the comfortable foam mattress turn the pouffe into a bed. This way, the model will be perfect in small apartments as additional sleeping place. And after folding, the pouffe provides high comfort, as in the case of the Umo sofa, and matches its visual appearance. It has characteristic natural wrinkling and exposed seams at the edges.
